

Is **BSI** right for me?

Were you nominated for the Blank Summer Institute (BSI)? Are you considering applying? Here's what to know about the program!

- This year's BSI is for students who are talented in math, science, engineering, or creative writing.
- Students spend a week living and learning on the University of Iowa campus with expert instructors and caring resident assistants. It's the perfect place for engaged and curious students to explore a topic they love in a community of similarly-minded peers.
- **All accepted students receive a \$1,000 Blank Scholarship that covers the majority of the program's costs.** Additional financial aid is available if the remaining program cost is a barrier to entry.
