Is BSI right for me?

Were you nominated for the Blank Summer Institute (BSI)? Are you considering applying? Here’s what to know about the program!

• This year’s BSI is for students who are talented in math, science, engineering, or creative writing.
• Students spend a week living and learning on the University of Iowa campus with expert instructors and caring resident assistants. It’s the perfect place for engaged and curious students to explore a topic they love in a community of similarly-minded peers.
• All accepted students receive a $1,000 Blank Scholarship that covers the majority of the program’s costs. Additional financial aid is available if the remaining program cost is a barrier to entry.

Applications are due February 1. Learn more and apply at belinblank.org/bsi
